

Dear Shareholders,

It gives me great pleasure to connect with you!

Your Company's pursuit to make this world a better place with environment friendly, sustainable solutions, continues.

Energy security and GHG reduction being the topmost priorities for India, ethanol is gaining importance in the energy matrix. As the sugar season 2015-16 comes to an end, nationwide blending is at 3.2%, served by 1st generation ethanol (1G) produced from molasses, a by-product of sugar mills. 1G ethanol will continue to be the main contributor to the blending program, besides serving beverage and industrial demand. However, the desired 10% ethanol blending program calls for alternate feedstocks and hence, the need for 2nd generation cellulosic ethanol (2G) technology. With positive momentum in India's ethanol blending program, 2G ethanol will definitely contribute to India's energy self-sufficiency and well-being of farming community.

This year marks yet another milestone in your Company's history with the latest addition of 2G cellulosic ethanol technology to the portfolio of sustainable solutions. It is a matter of great pride that Indian Oil Corporation Ltd., has selected your Company as a technology partner for its 2G projects. Discussions with other Oil Marketing Companies are progressing well.

In its various business segments, your Company is centred on enhancing sustainability and innovation. Your Company maintains the leadership position in **1G ethanol** space in India and is among the top global players. The business model for modernization of existing ethanol plants has gathered impetus in domestic as well as international markets.

At **Praj HiPurity**, the focus is on greater value addition in the process side of pharma industry. Zero liquid discharge solutions remain the focal point of industrial **Waste Water Treatment** business. The **Critical Process Equipment & Systems** team is making concerted efforts on process skids, that need higher engineering expertise. Your Company maintains a dominant market share in the **Brewery** segment in India. Appropriate strategies are in place to capitalize on growth prospects in each of the businesses.

Your Company's overall operations have responded well in the first half of this fiscal even in the midst of challenging business environment, with Rs 410.72 cr top line and Rs 7.15 cr bottom line. Order intake of Rs 480 cr is inclined toward domestic market owing to subdued sentiments in the international market. With the prudent management of its balance sheet, your Company remains debt free with Rs 239 cr cash on hand.

Your Company has prepared itself to respond to the opportunities and challenges, equally. Staying true to its core values, your Company intends to pursue a vigilant strategic approach in its growth endeavours.

I thank you for your continued support. Wish you and your loved ones a Blessed Diwali and Prosperous New Year!
