

## Pramod Chaudhari, Executive Chairman, Praj amongst top 100 People in Advanced Bioeconomy

Mr. Pramod Chaudhari, Executive Chairman, Praj Industries is one of the top pioneers in the renewable energy space. He has been ranked 86th in the Advanced Bioeconomy poll for 2015.

On this occasion Mr. Chaudhari said, "It is indeed a great honor to be recognized in the top Advanced Bioeconomy's top 100 people from all around the world. Praj has been working on 2nd generation biofuels since last 6 years. We will soon commission our 1st demo commercial plant in India running on bagasse, corn cob and corn stover. Advanced biofuels have the potential to change the landscape for biofuels with breakthrough innovations. The potential is immense with a whole new paradigm shift possible for renewable chemicals and biomaterials. We have successfully tested our technology at lab and pilot scale at our R&D centre – Praj Matrix and it has shown encouraging results. We are also working at lab scale on converting urban waste to ethanol. We are focusing on bolt-on models for enhancing viability and quick commercialization.
